

Metalfab Fire Trucks  
847 Central Street  
Centreville NB E7K 2E8

This document confirms that CAPE tested and evaluated a Metalfab Fire Trucks Crew Cab for conformance to NFPA 1901-16 Standard for Automotive Fire Apparatus, section 14.3.2, which incorporates by reference the following ECE standard and Society of Automotive Engineers Surface Vehicle Recommended Practice:

1. ECE R29, Protection of Occupants of the Cab of a Commercial Vehicle, August 1999.
2. SAE J2422 Cab Roof Strength Evaluation – Quasi-Static Loading Heavy Trucks, February 2010.

CAPE project number CTR14074 demonstrates that the Metalfab Fire Trucks Crew Cab meets and/or exceeds all performance requirements specified by the abovementioned NFPA standard, ECE standard, and SAE recommended practice.

Kind Regards,

Ryan W Hoover, PE  
CAPE Technical Director

A handwritten signature in black ink that reads "Ryan W Hoover".
